

Bomaid has 16 health plans, HOW?

At the beginning of 2023, Bomaid launched a new deck of health plans to offer greater flexibility in choice of health plans. Customers can now choose different levels of Inpatient and Outpatient benefits. For the first time ever, members can choose, and tailor make their own health plans based on their medical needs and budget.

What is **Inpatient** and **Outpatient** Benefits

In-patient care refers to medical treatment and services that are provided to a patient who has been admitted to a hospital, or other equivalent healthcare facility and Requiring an over-night stay or more

Out-patient care, also known as ambulatory care, refers to medical services and treatments that are provided to patients who do not require an overnight stay in a hospital or healthcare facility. Instead, patients receive care on an appointment basis and return home the same day.

How do I go about choosing my level of cover?

There are four base options that one can choose from, **Bomaid has the four options.**

After selection of base cover, you can now select the level of **outpatient cover**

- Core** Basic outpatient cover. Offers minimum cover
- Plus** Unlocks additional outpatient benefits
- Extra** Provides more access to more cover for consultation
- Max** Unlocks maximum outpatient benefits available with the fund.

What is PAC model?

With the New Health plans, the fund has also introduced a New Pricing Model. This model is simple, accurate and differentiates pricing for child and adult dependants.

PAC stands for Parent, Adult & Child dependants and one can add a dependant from any of the available options

The previous pricing structure did not recognise an adult dependant vs a child dependant and therefore charged them the same

PAC is cheaper and recognises the individual differences and healthcare needs especially for individual customers and younger families

This means that a customer is charged monthly subscription according to their health plan, age, and the number of dependants they have on their health plan.
